this book brings together leading international experts in the world of terrorism research and counterterrorism policy making it has three clear areas of focus it looks at current issues and

trends in terrorism research it explores how contemporary research on terrorism is focused and conducted it examines how this research impacts in terms of counterterrorism policy and practice this is essential reading for all students of politics and security studies and scholars with an interest in terrorism and policy making

this publication is part of the constructions of terrorism research project being carried out through a partnership between trends research advisory abu dhabi uae and the orfalea center for global and international studies university of california santa barbara

this major new handbook synthesises more than two decades of scholarly research and provides a comprehensive overview of the field of terrorism studies the content of the handbook is based on the responses to a questionnaire by nearly 100 experts from more than 20 countries as well as the specific expertise and experience of the volume editor and the various contributors together they guide the reader through the voluminous literature on terrorism and propose a new consensus definition of terrorism based on an extensive review of existing conceptualisations the work also features a large collection of typologies and surveys a wide range of theories of terrorism additional chapters survey terrorist databases and provide a guide to available resources on terrorism in libraries and on the internet it also includes the most comprehensive world directory of extremist terrorist and other organizations associated with guerrilla warfare political violence protest and organized and cyber crime the routledge handbook of terrorism research will be an essential work of reference for students and researchers of terrorism and political violence security studies criminology political science and international relations and of great interest to policymakers and professionals in the field of counter terrorism

containing essays by an array of top international scholars this new book provides a comprehensive analytical critique of the current state of research in the terrorism and counterterrorism studies field what it has substantively achieved over the years and where it should be heading in the future offering an overall examination of research achievements and gaps in scholarly efforts towards understanding terrorism as a complex behavioural and social phenomenon it also assesses various research approaches into counterterrorism studies clearly identifying a pathway for prioritized future research agendas in the field this future research agenda is further enhanced by the provision of an appendix containing 444 identified

research topics developed by the united nations terrorism prevention branch mapping terrorism research builds a cohesive interdisciplinary and high quality research agenda in terrorism and counterterrorism for future generations of academic students scholars as well as practitioners and will appeal to students of terrorism studies political science and international relations

this book is an introduction to critical approaches to terrorism studies while there is a growing body of critical terrorism studies literature devoted to empirical examples and conceptual development very little has been written about how to systematically carry out this kind of research critical terrorism studies fills this gap by addressing three key themes the position of terrorism studies and critical terrorism studies in the discipline of international relations its theoretical and methodological elaborations of critical approaches to the study of terrorism empirical illustrations of those approaches drawing upon a range of engaging material the volume reviews a series of non variable based methodological approaches it then goes on to provide empirical examples that illustrate how these approaches have been and can be utilized by students teachers and postgraduate researchers alike to critically and rigorously study terrorism this textbook will be of much interest to students of terrorism studies sociology critical security studies and its in general

first published in 1991 this book includes several contributions to the new look in terrorism research including a history of terrorism that reaches back two thousand years an examination of the life cycle of terrorist groups that have come and gone since world war ii and a new theory of the stages by which political protest becomes political violence and terrorism

asking vital questions concerning the future directions of terrorism research this topical research agenda dives into the current state emerging methodologies and key trends of this emotive and controversial field

this volume is a monumental collection of definitions conceptual frameworks paradigmatic formulations and bibliographic sources which is now being revised and updated as a resource

for the expanding community of researchers on the subject of terrorism

this major new handbook synthesises more than two decades of scholarly research and provides a comprehensive overview of the field of terrorism studies the content of the handbook is based on the responses to a questionnaire by nearly 100 experts from more than 20 countries as well as the specific expertise and experience of the volume editor and the various contributors together they guide the reader through the voluminous literature on terrorism and propose a new consensus definition of terrorism based on an extensive review of existing conceptualisations the work also features a large collection of typologies and surveys a wide range of theories of terrorism additional chapters survey terrorist databases and provide a guide to available resources on terrorism in libraries and on the internet it also includes the most comprehensive world directory of extremist terrorist and other organizations associated with guerrilla warfare political violence protest and organized and cyber crime the routledge handbook of terrorism research will be an essential work of reference for students and researchers of terrorism and political violence security studies criminology political science and international relations and of great interest to policymakers and professionals in the field of counter terrorism

in response to the growth of a critical perspective on contemporary issues of terrorism this edited volume brings together a number of leading scholars to debate the new subfield of critical terrorism studies in the years since the 9 11 attacks terrorism studies has undergone a major transformation from minor subfield of security studies into a large stand alone field and is probably one of the fastest expanding areas of research in the western academic world however much of the literature is beset by a number of problems limiting its potential for producing rigorous empirical findings and genuine theoretical advancement in response to these weaknesses in the broader field a small but increasing number of scholars have begun to articulate a critical perspective on contemporary issues of terrorism this volume brings together a number of leading scholars to debate the need for and the shape of this exciting new subfield the first part of the volume examines some of the main shortcomings and limitations of orthodox terrorism studies while the second examines exactly what a critical terrorism studies would look like contributors from a variety of methodological and disciplinary perspectives give this volume diversity and it will lay the foundations for and provoke debate

about the future research agenda of this new field this book will be of much interest to students of critical security studies terrorism studies and ir theory in general richard jackson is reader in the department of international politics aberystwyth university where he is also senior researcher at the centre for the study of radicalisation and contemporary political violence csrv he is the founding editor of the journal critical studies on terrorism marie breen smyth is director of the centre for the study of radicalisation and contemporary political violence csrv at aberystwyth university she is a reader in international politics and co editor of the journal critical studies on terrorism jeroen gunning is lecturer in international politics at aberystwyth university deputy director of the centre for the study of radicalisation and contemporary political violence and co editor of the journal critical studies on terrorism

this new handbook is a comprehensive collection of cutting edge essays that investigate the contribution of critical terrorism studies to our understanding of contemporary terrorism and counterterrorism terrorism remains one of the most important security and political issues of our time after 9 11 critical terrorism studies cts emerged as an alternative approach to the mainstream study of terrorism and counterterrorism one which combined innovative methods with a searching critique of the abuses of the war on terror this volume explores the unique contribution of cts to our understanding of contemporary non state violence and the state s response to it it draws together contributions from key thinkers in the field who explore critical questions around the nature and study of terrorism the causes of terrorism state terrorism responses to terrorism the war on terror and emerging issues in terrorism research covering a wide range of topics including key debates in the field and emerging issues the routledge handbook of critical terrorism studies will set a benchmark for future research on terrorism and the response to it this handbook will be of great interest to students of terrorism studies political violence critical security studies and ir in general

this new edition of john horgan s critically acclaimed book is fully revised and expanded the book presents a critical analysis of our existing knowledge and understanding of terrorist psychology despite the on going search for a terrorist pathology the most insightful and evidence based research to date not only illustrates the lack of any identifiable psychopathology in terrorists but demonstrates how frighteningly normal and unremarkable in psychological terms are those who engage in terrorist activity by producing a clearer map of the processes that impinge upon the individual terrorist a different type of terrorist psychology emerges one which has clearer implications for efforts at countering and disrupting violent extremism in

today's world in this 2nd edition Horgan further develops his approach to the arc of terrorism by delving deeper into his tried model of involvement engagement and disengagement the three phases of terrorism experienced by every single terrorist drawing on new and exciting research from the past decade with new details from interviews with terrorists ranging from al Qaeda to left wing revolutionaries biographies and autobiographies of former terrorists and insights from historic and contemporary terrorist attacks since 2005 Horgan presents a fully revised and expanded edition of his signature text this new edition of the psychology of terrorism will be essential reading for students of terrorism and political violence and counterterrorism studies and recommended for forensic psychology criminology international security and IR in general

the study of terrorism represents one of the major turning points in criminology of the twenty first century in the space of just two decades research on terrorism and political extremism went from a relatively uncommon niche to a widely recognized criminological specialization terrorism research now appears in nearly all mainstream criminology journals college courses on terrorism and political violence have been added to the curricula of most criminology departments and a growing number of criminology students are choosing terrorism as a suitable topic for class papers research topics theses and dissertations the purpose of this book is to explore similarities and differences between terrorism and more ordinary forms of crime this element considers the ways that criminology has contributed to the study of terrorism and the impact the increasing interest in terrorism has had on criminology this element also provides empirical comparisons of terrorist attacks to more ordinary crimes and criminal offenders this title is also available as open access on Cambridge Core

this book shows how to use a range of critical approaches to conduct research on terrorism featuring the work of researchers who have already utilized these methods to study terrorism it includes a diverse range of critical methodological approaches including discourse analysis feminist postcolonial ethnographic critical theory and visual analysis of terrorism the main objectives of the book are to assist researchers in adopting and applying various critical approaches to the study of terrorism this goal is achieved by bringing together a number of different scholars working on the topic of terrorism from a range of non variables based approaches their individual chapters discuss explicitly the research methods used and methodological commitments made by the authors while also illustrating the application of their particular critical perspective to the topic of terrorism the authors of each chapter will

discuss 1 why they chose their specific critical method 2 how they justified their methodological stance 3 how they conduct their research 4 and finally an example of the research this book will be essential reading for students of terrorism studies and critical terrorism studies and highly recommended for students of political violence security studies and ir

written by a variety of experts on terrorism and extremism this volume contains original cutting edge essays that cover unusual aspects of these subjects and illuminate the significant developments and trends taking place in the field the reader also examines some important case studies and offers new insights into topics of growing concern and pressing importance individual units examine domestic international cultic and atavistic terrorism and the book concludes with a section on post 9 11 security concerns for intergovernmental organizations national governments policy analysts law enforcement groups scholars and a society at large faced with the arrival of tumultuous times

one of the leading psychologists in the field undertakes a comprehensive examination on one of the most important yet neglected areas in the study of terrorism

the oxford handbook of terrorism systematically integrates the substantial body of scholarship on terrorism and counterterrorism before and after 9 11 in doing so it introduces scholars and practitioners to state of the art approaches methods and issues in studying and teaching these vital phenomena this handbook goes further than most existing collections by giving structure and direction to the fast growing but somewhat disjointed field of terrorism studies the volume locates terrorism within the wider spectrum of political violence instead of engaging in the widespread tendency towards treating terrorism as an exceptional act moreover the volume makes a case for studying terrorism within its socio historical context finally the volume addresses the critique that the study of terrorism suffers from lack of theory by reviewing and extending the theoretical insights contributed by several fields including political science political economy history sociology anthropology criminology law geography and psychology in doing so the volume showcases the analytical advancements and reflects on the challenges that remain since the emergence of the field in the early 1970s

theories of terrorism explains and advances the major theories of terrorism that address issues of becoming a terrorist being a terrorist and leaving terrorism in a clear and accessible

format readers will gain an understanding of the most promising explanations of terrorism that have been developed to date and how they can be used to explore core substantive issues related to the topic the content is delivered with a scholarly depth though still accessible by students at different levels the book offers explanations from prominent scholars for the three phases of radicalization covering emerging topics such as women s involvement in terrorism fear of terrorism the code of the terrorist and suicide terrorism this is the first book in the advances in criminological theory series to address the issue of terrorism and emphasizes the use of theory to direct research development in the future the style and content coverage of the book make it appropriate as a supplemental text in undergraduate courses on terrorism and political violence the inclusion of current empirical literature and guidance for future research efforts gives the text appeal for graduate students and academics in the disciplines of criminology criminal justice political science sociology and interdisciplinary terrorism studies the emphasis on theory and the radicalization process throughout the text will also make the book useful as a reference for general graduate level theory courses within these areas

this new textbook provides students with a multidisciplinary theoretical and methodological introduction to terrorism studies the book identifies the main theories proposed in the field of terrorism studies as they relate to several issues why and how individuals and organizations get involved in terrorism the definition and concept of terrorism state terrorism leaving terrorism behind counter terrorism manifestations of terrorism in time and space terrorism studies is a highly heterogeneous field with a broad range of theories and disciplines marked by ample debates beyond individual contributions and unique perspectives however it is difficult for students and interested readers to have a broader and structured grasp of the theoretical landscape within and behind the study of terrorism this textbook offers a valuable new teaching tool which aims to provide students with the conceptual theoretical and methodological toolbox necessary to understand and research terrorism this book will be essential reading for students of terrorism studies political violence and counter terrorism and is highly recommended for students of security studies criminology politics and international relations
